

P.S.  
This piece of paper  
looked as much like an  
envelope that I handed around  
up the whole thing.

Ms. Marylou Armeli  
900 Third Avenue

Council for Tobacco  
Research  
4th floor

New York, New York

Dear Ms Armeli

Mr. Gertenbach stated in his letter of announcement  
about the CTR meeting in April to be sure to contact  
you about dates of arrival + departure.  
I leave Chicago on Monday April 1. I will work to  
stay at the Waldorf. My departure from New York will  
be on Saturday April 22. I have to go from the CTR  
over

to a meeting to the National Academy of Sciences.  
And don't want to rush from the meeting on Friday the 22<sup>nd</sup>  
and arrive late at night in Washington - reason I'm  
afraid that the President might be hiding ~~and~~ behind  
a bush and scare - out of me. - Actually I don't  
like pushing too fast + too hard. I guess it was  
a year ago <sup>this</sup> April that I had to leave the CTR meeting  
a day early to have a video taping for the Rodent  
Society + other related Rodentological societies. After that  
taping I had to fly back to D.C. for the National Acad meeting  
and I was not quite but almost a wreck.

Very love to all of you - Sincerely, Leroy Jacobson  
coming back in the office - Is the valley gone?
